FRIENDLY REMINDER

SeA occasionally uses Remote Learning for emergency closures. When students work remotely, teachers will communicate via email or Google Classroom to share assignment expectations. Students should complete the tasks as outlined in these communications on Remote Learning days. Student attendance is taken on these days as tasks are completed in their core academic class(es).

PowerSchool becomes

Infinite Campus

Dear SeA family,

North Carolina's public schools are transitioning from PowerSchool to Infinite Campus as their student information system (SIS). The transition is happening behind the scenes in phases over the 2024-2025 school year, and Infinite Campus will be used across the state starting 2025-2026 academic year. The parent portal will be available in the fall of 2025.

Infinite Campus will offer:

- A web-based portal and mobile apps to manage education in the SIS.
- Grades, attendance, assignments, schedules, and other important school information will be stored in Infinite Campus similar to PowerSchool.
- A system to track student progress over time.
- More ways to share information between parents, students, and school staff

Dr. Lewis Cox

P.S. Good luck to our Ballin' Dolphins Boys Basketball team as our playoff season kicks off this week!
